

BALE CLAMPS

These bale clamps are manufactured to order in Adelaide using a clamp body with very good visibility and are offered with a wide range of bale arm designs.

The range utilises either a fabricated bale arm model CEC for general purpose use at a lower cost or a high tensile steel slim bale arm model CSC for handling in confined areas such as shipping containers.

Features:

- ✓ Excellent visibility
- ✓ Hydraulic components protected from damage and impacts
- ✓ Nested valve block for working in tight areas i.e. containers
- ✓ High tensile steel used in slim arm design

Options:

- ? Bale arms in various sizes
- ? Class IV mounting
- ? Larger capacities
- ? Bolt on arms
- ? Variety of opening ranges
- ? Special configurations for handling pulp and cotton
- ? QD bottom hooks
- ? Hose reels, solenoid valves and buttons for easy hydraulic installation
